Unit Make: Jacobsen
Unit Model: JMC.70539
Unit Tag:

HR9016 Injectors

Item	Type	Description	Qty	Tax	Price	Discount	Net Price
Injectors							
		Injectors					
		All of the approved repairs have been completed and the unit runs well until it comes up to temperature after about 1.5 hours of mowing.					
		When at temperature, the mower loses fuel pressure, bogs down and blows black smoke.					
		We sent the injectors off for testing and were able to verify that 3 of the 4 injectors are bad.					
		Suggest replacing all 4 fuel injectors. Once the new injectors are installed and tested we can verify if that fixed the issue. Lead time on new injectors 7-10 days from Europe.					
		There is a possibility that the fuel rail and pump are also failing, we will be able to verify that after the injectors are reinstalled.
