RE: PB Contracting – MLK Roofing Contract

Lee,

Based on the information provided today by PB Contracting I offer the following:

PB is approved for installation of EPDM roofing by Johns Manville.

Lee talked with the facilities person at Great Neck Long Island, and they were very pleased with the work done by PB Contracting. Also, Lee talked with New York City Park Department; they did not have any issues with PB Contracting's roof work.

Based on the information received today and the follow-up conversations it is recommended that PB Contracting be awarded the contract for MLK roofing.

If you have questions, please contact me.
