Classroom Barriers

Portable classroom barriers provide students and teachers an added layer of protection from respiratory droplets and virus exposure. Our barriers help provide physical separation in smaller areas to help maintain social distance and offer a durable, simple design and clear view that won't impede vision and learning.

Bent Edge Desktop Barrier
• Unique bent edge design provides ease in installation and setup for teachers and school facilities personnel
• Bent edge design is our sturdiest design ideal for traditional style square or rectangle desk shapes
• Provides added protection from respiratory droplets for both students and teachers
• Clear, lightweight, impact-resistant polycarbonate
• Freestanding design requires no tools for setup; stands upright with or without adhesive channel strips (included)
• Available in three sizes to accommodate a variety of traditional desktops and height of students

Hinged Desktop Barrier
• Flexible hinged-edge desktop barriers adapt to traditional, winged, hex, kidney and other unique desktops in the classroom
• Hinged barriers fold flat for easy storage when not in use
• Provides added protection from respiratory droplets for both students and teachers
• Clear, lightweight, impact-resistant polycarbonate
• Freestanding design requires light assembly for setup without the use of tools; stands upright with or without adhesive channel strips (included)
• Available in four sizes to accommodate a variety of traditional desktops and height of students
