

## PERFORMANCE BASED CONTRACT GUIDELINES

### 1. WHAT IS THE PURPOSE AND SCOPE OF THE SERVICE? (Describe in detail any services to be provided or materials to be purchased)

The Gaming Concepts curriculum uses esports as a digital framework to create a new pathway for students to experience science, technology, engineering, and mathematics (STEM). Gaming Concepts teaches college and career readiness skills such as communication, teamwork, critical thinking, and problem-solving.

Gameplan LMS allows teachers to use the teach Gaming Concepts courses, train students using game-specific training programs and organize competitive teams.

#### ***Course description listed below:***

**Gaming Concepts: Exploring Esports and Scholastic Gaming in Middle School (.5-1.0).** This course uses esports as the engagement piece to teach students executive function skills that will help make their transition to high school more successful. Lessons focus on organization, perseverance, self-advocacy, self-regulation, time management, responsible decision making, digital citizenship, and social emotional learning that are often difficult to teach in an authentic, engaging way through traditional middle school coursework. Evidence-based Mental Health Moments, proven to increase student mental health, are also naturally embedded in lessons.

**Gaming Concepts: Fundamentals (A video gaming curriculum for schools) (.5-1.0).** This course helps provide students a digital framework through an esports lens. Students will explore the history of esports, learn genres of games, practice good gamer health, learn basic technology information and hands-on troubleshooting, explore college and career readiness with a technology focus, engage in digital citizenship, preventative mental health, teamwork, journaling and reflection.
