Warranty Details

Length of Warranty Offered:

Everyday PC will warranty all products for a period of 4 years from date of delivery.

Coverage:

The EPC 4 year warranty will cover all hardware against any defects (except accidental damage). This warranty will guarantee that Everyday PC will replace all defective parts free of charge for the duration of the warranty period. Everyday PC will also cover all shipping fees and charges related to warranty claims.

Warranty Claims Process:

Everyday PC has a no questions asked warranty program. Should you have any issues with your computer hardware you would simply need to contact your dedicated account manager:

Drew Hall

TEL: (888) 987-4338 x122

EMAIL: dhall@everydaypc.com

Once notified, your account manager will help determine whether you will need replacement parts or in the case of serious issues an entire replacement unit.

We will then send out your replacement parts or units via UPS. We only ask for faulty components to be returned to us AFTER your problems have been resolved. Everyday PC understands the pressures faced when a system goes down, our goal is to get you back up and running with as little down time as possible.

Qualifications and References

Everyday PC has been servicing the IT needs of educational institutions, corporate businesses and private users successfully for more than a decade. Our customers have come to rely on us to deliver the highest quality equipment backed by the best customer care money can buy.

Advantages of dealing with Everyday PC

- Pay with purchase orders and pay only after you've received your order.
- You may send in your old equipment for trade in credit towards the purchase of newer computers. We also recycle what we can't use.
- Our sales teams are all trained to understand the problems schools face and are equipped with helping deliver a solution to meet your needs.
- Experienced customer service agents will help you should you have a problem. Our headache free approach is what wins over schools time and time again.

- How long has our company been in business?

We started our company in 2009 in Mississippi and soon after registered in Virginia and opened a dedicated office in Arlington.

- How long has our company been providing sales for technology equipment?

We added equipment/hardware to accompany our software development and sales in 2012

- How long has our company provided warranty coverage?

We have offered a wide range of warranties including NBD (Next Business Day), ADP (Accidental Drop Protection), etc. since the start of our equipment sales.

IoT Professional offers custom software solutions and hardware (including servers). We believe that both aspects of technology blend together to make one complete solution for our clients. While we do have a dedicated receptionist we do believe that we should have a personal relationship with our clients which is why provide direct lines of communication to anyone doing business with IoT.

Technical Support:

Our technical support specialist provide customers with hardware and software solutions that meet their needs based on an in depth analysis of the current environment

The City of Yonkers

REF. NO.: 2021- 4791

Customer Service:

IoT's customer service department has two major functions which include public relations and creating a positive company culture.

Delivery Department:

Our delivery department builds positive and productive working relationships with our customers for business growth. We analyze and troubleshoot delivery issues in a timely fashion. Our delivery team ensures timely and accurate customer deliveries.

Sales Department:

Our sales department consists of a set of business activities and processes that help our sales organization run effectively, efficiently and in support of business strategies and objectives. We handle all sales, sales support and business operations in conjunction with our distributors.

Admin Department:

Our Administrative department consists of both Administrative and Human Resource managers and assistants that support the work of all office departments. The responsibility of this department is keeping records and setting appointments.

Services

For White Glove Services and Asset Tagging:

- Microsoft Intune Provisioning Service (with Hardware Hash included)
- Microsoft Intune Provisioning Service (csv file uploaded to Intune Tenant Portal)
- Microsoft White Glove AutoPilot Deployment Service
- Assign AutoPilot Licenses to Users
- Assign an AutoPilot profile to devices (Profiles must be created prior)
- Asset Tagging (qty 1-499)
- Asset Tagging for QTY 500+

Our asset tag service includes an asset tag report (containing the order number, asset tag number and serial number of the system(s) tagged). **How it works:** This would need to be completed by the customer and then uploaded to the sales order when placed. The customer advises where they want the tag to be placed on the system, tag size, material, etc. We will take a picture of the initial tag and requested placement on the system (first article) and send it over for review and approval prior to proceeding with the volume order.

Standard Tag Options:

Color: White

Material: Matte or Poly

Size: 1" x 3", 1.5" x 3" or 2" x 3"

Tags can include multiple lines of text, small logo (requires demo to confirm ability to print) and barcodes.

Gaylord Packaging:

Our Gaylord Packaging service includes the following:

- This is a custom designed slotted gaylord specifically designed to securely house specific sized units and adapters. Specific slots and foam inserts ensure no damage is done during transit.
- The gaylord package service is not just a box material, but includes the labor to remove all materials / disposal and compacting – this is Green service- eliminating the need for the EU to dispose of all excess trash customary with individual box shipments. This is not just returning the unit to the original manufacturer box and shipping.
- This includes the custom slotted dividers with foam inserts as well as increased wall protection for security during transit
- Gaylord labelling to include serial/asset information on units contained
- These boxes can be saved to collect books for storage at the end of the school year, another value add of this service.
