

Yonkers Public School District,

On behalf of the New York Rangers, the organization will be donating \$54,000 worth of street and ball hockey equipment to the Yonkers Public School District.

Please know that your partnership is greatly appreciated to provide equipment and access to the game of hockey in your community.

We are so thankful for your willingness to serve as a partner during one our most important programs of the year as we continue to break down barriers to the sport and make it more accessible to everyone.

Thank you!

Mike Fasulo
