| Enclosure: | |
| File Attachment: |  BOCS HRR Industries PS9.xlsx  AE Recommendation Letter HRR.pdf  PS 9 HVAC Contract HRR Bid Sheet.pdf  IFB-6569A HVAC Contract Bid Results.pdf |
| Rationale: | <p>This work was let for bid twice. The results of the first bids on Dec. 18, 2020 were rejected were after determining that requisite scope of work was inadvertently omitted from the contract documents.</p> <p>This resolution is to grant the administration the authority to enter into the subject contract. In compliance with General Municipal Law 103, this was let for public bids which were opened in public and read aloud on February 5, 2021. Bids were examined and all due diligence observed in determining the lowest responsive and responsible bidder. A total of 4 bids were received, with the highest bidder having a bid of \$273,248.00. The work was designed by Eisenbach & Ruhnke Engineering, P.C. and was estimated to be approximately \$150,000.00</p> <p>After interviewing the apparent low bidder, confirming that they understood the scope of work, bids were found to be correct and the firm has performed satisfactorily on previous YPS projects E&R Engineering, Savin Engineers and this department are recommending the award of the subject contract to HRR Industries, Inc.</p> <p>This CONTRACT 3 of 5, HVAC work includes restoration of the Auditorium: ductwork, radiator enclosures and ceiling fans. Additional exhaust fans for the new toilet room and new cabinet heater for the custodial entrance.</p> <p>Overall, the scope of CIP 10816 (Phase II) includes but is not limited to: re-bid of the balance of the GC work not completed in Phase 1 such as restoration Auditorium, Library, two basement classrooms, new ADA unisex basement toilet room, select classroom flooring and requisite asbestos abatement. Site work includes new storm drainage, select paving, exterior stairs, stone retaining walls and replacement of the underground fuel oil storage tank. The project cost is anticipated to be roughly \$3.0 million.</p> |
