This is to extend the current contract with Stanley Convergent (Sonitrol) for another calendar year under the same prices, terms and conditions as last year.

Rationale: Scope of work also includes the troubleshooting and repair/replacement of system components. The Sonitrol System is unique and already installed throughout the District. This work is being done by Stanley Convergent at the direction of the District to furnish and install non-proprietary equipment on the Stanley-owned system which is accessible solely by Stanley. Therefore, this is technically a sole source purchase.
