

PLANS, SPECIFICATIONS, AND COST ESTIMATES

The Department of School Facilities Management shall ensure that any architect, engineer, and/or site planner utilized by the District develops site, construction, and equipment plans and specifications that comply in all respects with the laws of the State of New York and the regulations and requirements of the State Education Department and/or any other governmental agency with jurisdiction over the project.

Such plans, including estimates of construction costs, shall be reviewed and approved by the Department of School Facilities Management in consultation with the Superintendent of Schools, as appropriate. All contracts necessary to implement such plans will be presented to the Board of Education for its consideration and approval. If required, such plans will be submitted to the appropriate State and local agencies for their review and approval.

The final determination of cost and budget for any project is the sole responsibility of the Board.

Adoption date: July 20, 2011

Revised: October 18, 2023
