Sole Source Justification for SuperEval.com

SuperEval was developed by PLS 3rd Learning. A corporation headquartered in Buffalo, New York, PLS 3rd Learning was founded on common values, beliefs and commitments to improving education with a mission to leverage existing and emerging technologies to advance the overall quality of education for all children. Over the past ten years, its founders have worked with schools, community-based organizations, cultural and government agencies, and others toward the common goal of identifying, developing, and using information and technologies to support teaching and learning.

PLS 3rd Learning is the sole source provider of SuperEval. Pricing for the platform, use of rubric, and one evaluation is \$2,700 plus a one-time set up fee of \$150. Each additional evaluation in SuperEval starts at \$250 and decreases in price depending on how many people are being evaluated using SuperEval. The initial platform fee and additional licenses are BOCES aid-able if you are a component district of a BOCES.

If you have any further questions, please contact us directly.

Regards,

Michael Horning, Jr.
Executive Vice President

Robert P. Hartz
VP of Strategic Partnerships
