

COMPENSATION AND BENEFITS

The Board of Education believes that the district's employees should receive fair compensation and benefits for the work it provides in serving the children of our community. To this end, the Superintendent of Schools, in collaboration with the City of Yonkers Human Resources department shall be responsible for establishing and administering the compensation and benefits provided to the district's employees.

The Board and the school district will comply with all applicable federal and state laws that require minimum compensation and benefits be provided to employees.

Determination of Employment Status

Before enrolling an individual in the district's compensation and benefits program, the district will determine the individual's employment status. In accordance with regulations issued by the State Comptroller and as set forth by the Internal Revenue Service, the Human Resources department will determine if the person is an employee and thus entitled to benefits. If the individual is not an employee based on the specified criteria, they will not be enrolled in any of the benefit programs offered by the district or the State. When the district hires an attorney, physician, engineer, architect, accountant or auditor as an employee and not an independent contractor, the Board of Education President must certify to the applicable New York State Retirement System the factors supporting that determination using the form prescribed by the State Comptroller. The Board of Education President shall be responsible for reporting to the appropriate retirement system those individuals eligible for membership. This reporting shall take place at the time of an individual's employment, and at the intervals required by the appropriate retirement system.

Employees Covered by Collective Bargaining Agreements

The compensation and benefits (except for State Retirement System benefits) for employees who are represented by recognized or certified employee organizations are established by collective bargaining agreements negotiated between the employee organizations and the district. The district will negotiate in good faith over these issues, as required by law, and will fully comply with the requirements of the Taylor Law and the applicable collective bargaining agreements.

To ensure that the compensation and benefits provided to employees are fair and within the parameters of the district budget, the Board reserves its right to approve all additional funding required by the provisions of a tentative collectively negotiated bargaining agreement, in addition to any right of ratification that is secured by the district's negotiation representative(s).

Employees Not Covered by Collective Bargaining Agreements

The compensation and benefits for employees who are not represented by recognized or certified employee organizations shall be determined by the Superintendent, with approval by the Board.
